Please keep public lands public and open to the public. I understand the need to seek out alternative methods for power, and this may require the use of public lands, but lets not forget that this other source of power is for the public and is gained from public lands. Please do not bar the average person, hikers, bikers, campers, OHV enthusiast from accessing the public lands by taking them away for the "greater good of all".

These people are the "greater good" and its our land. Yes I know big business has piles of money and will make piles of money off of these people so lets not forget that you should want to take care of those who take care of you. Keep public lands public.
