

Solar Energy Development

Programmatic Environmental Impact Statement

Scoping Comment Form

The U.S. Department of Energy and the Bureau of Land Management invite you to participate in the scoping process for development of a programmatic environmental impact statement (PEIS). The PEIS will focus on issues associated with facilitating development of solar energy projects in six western states through establishment of environmental policies and mitigation strategies.

The Public Scoping period is open from May 29, 2008 until July 15, 2008. You can submit comments via the project web site <http://solareis.anl.gov>, by folding and mailing in this form (postage is required), or by mailing other materials to the address provided on the other side of this form.

WITHHOLDING OF PERSONAL INFORMATION: Commenters should be aware that the entire comment - including personal identifying information (including address, phone number, and e mail address) - may be made publicly available at any time. While one can request in the comment that personal identifying information be withheld from public review, this cannot be guaranteed. If you wish the Agencies to withhold your name or street address from public view, you must check a "withhold" option below. The Agencies will honor such requests to the extent allowed by law. All comments from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be available for public inspection in their entirety.

- My name and address are provided for the public record (see below and return address on other side)
- Withhold my name and address from the public record
- Withhold only my address from the public record

Name: BONNIE SORENSON

Address: _____

Comments:

"In the Solar Rescue of the Salton Sea Project" ^{using a solar water distillation device} was successfully done on March 2008 by my high school students; since the salinity concentration went down from 45ppt to "0" selenium from 77 to "non detected" with the donation of water solar distillation device donated by Rahus Institute + field trip expenses donated by Desert Protective Council. Your PEIS should take in consideration supporting educators, teachers with programs + materials about Renewable Sources of Energy (solar devices, etc) so students can apply their knowledge + find solutions as we did with this project. We Teachers (Science)

Please mark the box indicating how you would like to receive additional information. If an email address is provided, you will only receive information electronically. ^{need "special trainings" of all your plans (pro/cms) so we can teach accordingly with your most recent solutions of implementing (solar Energy) in California}

- By Email to: _____
- By Postal Mail to: Bonnie Sorenson
- Do Not Want To Receive Additional Information
