Just when our country is struggling with it's enery woes more and more the BLM/Dept. of Interior decides it needs to do a 22 month study on their impact? You hold up applications and a much needed RENEWABLE energy source that millions are in need of. Your 22 month study will do nothing but put us further behind in digging ourselves out of situations this government has buried us in. It's disgusting and I know I am only 1 person saying this but for every person willing to speak out there are millions more that just blow it off as a waste of breath, this government has already shown that the common U.S. citizen is ignored on a daily basis.
