BLM lands are public, ie, owned by the tax payers. As a tax payer, I hope that my government representatives are watching out for my best interests. I am in favor solar as an alternative energy source & using BLM land as a way for our gov to support its development. However, we taxpayers should NOT get financially 'raped' as is currently being done by mining, cattle, & other corporations currently using BLM land. Solar companies, pending 'clean' EIRs, should be given financial breaks to start up. Once launched and making over a certain amount of GROSS revenues, a minimum of 10% of gross revenues should be turned back over to the gov to support other programs such as medicare and medicaid.
