Comment Submitted:

It is being proposed by the Solar Energy Industry to install panels on Knight Ranch road where our pit area is. They are wanting to shutdown approx. 6000 acres in this valley. This will completely close down OHV use in this area. In addition to this proposal they are proposing to close off approx. 280,000 acres throughout the Las Vegas District.

THEREFORE to state my peace on this issue:

I do not believe that the jean area in las vegas nevada should be taken away from the numerous families that go out dirt bike riding and racing with their children. not many things these days are family oriented to keep a family closer and their children out of trouble.
