I do not support Solar Power panels
strewn across 6000 acres in Jean, NV.
They've already built some in Eldorado Valley(Boulder City) that do not lower our electric bill one penny. What a waste.
Secondly, it will lead to closure of public land that we use for recreation. Thousands of us.

Build the panels in town on houses or buildings. That technology works and has better real time results for those that want solar
powered homes/businesses.
It should be an option for homebuyers.
