To Whom It May Concern:

I am an offroad enthusiast who enjoys the freedom and nature of exploring our desert landscape. I am very disappointed to learn that more land, especially the number of acres being proposed here, is potentially being closed to public use. While I support alternative forms of energy being developed and used, I do not support a land closure designated for public use. There is viable, usable land available to this effort, although it may be a little more difficult to acquire, know that public land shut down is not the answer.

With regards,

Ryan Sloan
