To whom it may concern,

I am a resident of southern California and an avid off road enthusiast. Not only am I an enthusiast, but I make a living directly from the off road racing industry, designing and consulting for vehicles and vehicle design. I have traveled to Primm at least twice a year for off road racing for the last 6 years. The off road racing industry pays large amounts of money to keep land open for racing purposes, especially land near resorts that are friendly to off road racing. With the Herbst's purchase of Primm Valley resorts, this is some of the best news in off road racing, actually having a resort town that can cater and understand the needs of off road racing several times a year. I think it's unfair to close off this area with such close proximity to Las Vegas without opening another area of land for off road racers to race in.

I ask with this expanding industry that you please entertain the idea of opening other lands to race on if certain land may benefit by being conserved.

Thank You,

Zac Johnson
