I believe that you should NOT shut down 280thousand + acres for a personal project that you and your people can only use. We the people of this country pay for the use of these public lands thru taxes that are paid every year. I believe that every body that pays these taxes has the right use these lands for multipe purposes and not feel that the ground that they are using is being taken right from under their feet. That is just my 2 cents. Thanks
