To whom it may concern, I have been living in the las vegas area for the past 3 years and one of the greatest parts of living here is the access to local trails and offroading that is not available in most states. I agree that alternative energy is the future for our country but taking away land that my family and I take great pleasure in is not a solution. I look forward to every chance that I get to being outdoors and exploring this state and the many historical sights that are hidden here. Please reconsider this decision.
