While I feel that it is important to explore alternate sources of energy I can not approve of this proposal as is. It is pertinent that any area that is not already closed to the public be reestablished in equal size with the same amount of trails to allow for the same type of usage within the same BLM district as the area that will be taken from the people. This proposal takes away approximately 6000 acres of BLM land that is currently one of the few areas within the Las Vegas district that is open to off highway usage. If this recreation area is closed another recreation area must be established of equal size and quality within the district in addition to any other new or current recreation areas.
