We completely understand your need and want for implementing a solar plan, however, isn't there somewhere else that you can use the land to everyone's advantage? We race motorcycles in desert racing and are careful to obey all of the BLM rules. We do understand that some people do not adhere to the rules, however, for the most part, most of us do. These trails are already established. This is clean family fun and gives the kids something to look forward to. It is a positive approach to teaching them the skills they need to survive in this competitive world. Why is BLM making such an issue for us to have quality family time? We want our kids to enjoy the outdoors and not be a prisoner in their own homes. Please find another place to put the solar panels where no trails have been. There is plenty of areas out there for you to utilize. Thank you. The Family
