Dear Sirs,

Thank you for allowing us an opportunity to comment on this PEIS.

OHV use is quickly being targeted throughout this great country. For some reason, it appears that all of these "Projects" are being set up by the BLM to use OHV areas, as the prime locations for military, wind, solar, and geothermal projects.

This comment is relevant in that you should consider ways to implement a coexistence for OHVs and solar power if possible. If you really need "this" land, manage it for multiple use. Manage it period.
