I am a las vegas born Native and would like to express my opinion on the proposed closing of of land for any government purposes. I was raised in the desert and while camping in the woods is nice , I have come to love and respect the desert area we have in Nevada for family excursions and outings , I have a great love for our desert area and would like for my children to grow and recognize the beauty that our state has to offer, Please take a look at all the land that has been closed and that is being focused on for closing . Im sure there are hundreds of other sites in middle Nevada that can be used for your projects , if this was an attempt to close any land north of clark county , no one would even know it was going on. the desert area close to las Vegas are an integral part of our recreation and family trips, as our water problems continue and Lake Mead gets smaller and shallower ,coupled with our growing community the surrounding desert will eventually be our only resource for weekend trips, vaction and family bonding.

Give our state the oportunity to be know for something other gambling and drinking .

thank you
a native of Las Vegas and father of four
