Please consider my comments:

I am not opposed to 'Green Energy' but, I live in California and I am an off-road racer. We race in the southern Nevada area several times a year (mostly Primm area). Your proposed land closure in this area would deeply affect my ability to use BLM land. Each year more and more land is being closed with ZERO land being opened. Off road racers spend millions of dollars each year for the right to race and these rights are being taken away from us. Each race I bring at least 30 people to pit/spectate and this would deeply effect business for the surrounding businesses in the area for example the Primm Valley Resorts as well as the investment I have personally made to race off road. So please, reconsider your proposal to shut down land and realize how many people you are affecting. For more info n our off road sanctioning bodies, please visit the following websites and ask your self if this the right thing to do!!
