Of all of the thousands of government land available for use of this sort that they would pick this area for their use and ignore the wishes and wants of others is a fallacy of sorts. Off road use and racing for the general public has shrunk abominably in the last few years what with BLM restrictions and the paint brush declaration of wilderness areas leave a very small area for the general public and I feel the is just one more land grap for industrial use and profit.
I oppose the use of this land for the proposed Solar Energy site.
